#### **About Vista Gold Corp.**

Since 2001, Vista has acquired a number of gold projects with the expectation that higher gold prices would increase their value. For more information about our projects, including technical studies and resource estimates, please visit our website at [www.vistagold.com](http://www.vistagold.com). Vista has undertaken programs to advance the Paredones Amarillos gold project, located in Baja California Sur, Mexico, including a definitive feasibility study, the purchase of long delivery equipment items, and the purchase of land for the processing facilities, related infrastructure and the desalination plant. The results of a preliminary economic assessment completed in 2009 on the Mt. Todd gold project in Australia are encouraging and Vista is undertaking a pre-feasibility study and additional resource drilling to advance the project. Vista’s other holdings include the Guadalupe de los Reyes gold project in Mexico, Yellow Pine gold project in Idaho, Awak Mas gold project in Indonesia, and the Long Valley gold project in California.

The common shares of the Corporation to be issued pursuant to the terms of the Agreement have not been and will not be registered under the United States Securities Act of 1933, as amended, or any applicable state securities laws and may not be offered or sold in the United States absent such registration or an applicable exemption from such registration requirements. This press release does not constitute an offer to sell or the solicitation of an offer to buy any securities.
