Vista Gold Corp. Announces Receipt of an Additional A\$5.9 Million Net Tax Refund Under the Australian Government's Research & Development Incentive Program

DENVER, July 27, 2015 /[PRNewswire](#)/ -- Vista Gold Corp. (the "Company," "we" or "our") (NYSE MKT and TSX: VGZ) today announced that it has received an additional A\$5.9 million (approximately US\$4.3 million) Research & Development ("**R&D**") Tax Incentive refund, net of costs to prepare and file. This refund is related to costs we incurred in respect of the 2013 fiscal year. The refund was paid under the Australian Government's R&D Tax Incentive Program, a program designed to encourage industry to engage in R&D activities that benefit Australia. With this additional refund, we have received a total of A\$13.4 million net of costs to prepare and file. We did not incur any expenses that would qualify for a material rebate under the R&D Incentive Program in 2014.

Frederick H. Earnest, President and Chief Executive Officer, commented, "This rebate applies to the continuation of programs from 2012 into 2013 related to our work to find innovative solutions to the challenges at the Mt Todd gold project, water management in particular. Some of this work has been recognized as having cost-effective industry-wide application. We are pleased with the addition of approximately US\$4.3 million of cash to our treasury and now believe, based on our current plan of operations, that we are funded into 2018. We remain committed to careful management of our financial resources and intend to continue our practice of strict capital discipline as we evaluate potential programs that could better position the Mt Todd gold project for fast-track development when economic conditions permit."

About Vista Gold Corp.

Vista's principal asset is its flagship Mt Todd gold project in Northern Territory, Australia. We also hold approximately 4.9% of the outstanding common shares of Midas Gold Corp., non-core projects in Mexico and the United States and royalty interests in projects in Bolivia and Indonesia. For more information about our projects, including technical studies and resource estimates, please visit our website at www.vistagold.com.

Forward Looking Statements

This press release contains forward-looking statements within the meaning of the U.S. Securities Act of 1933, as amended, and U.S. Securities Exchange Act of 1934, as amended, and forward-looking information within the meaning of Canadian securities laws. All statements, other than statements of historical facts, included in this press release that address activities, events or developments that we expect or anticipate will or may occur in the future, including such things as the Company being funded well into 2018; our commitment to careful management of our financial resources; our ability to continue strict capital discipline; the timing and success of programs that could position the Mt Todd gold project for fast-track development; and other such matters are forward-looking statements and forward-looking information. The material factors and assumptions used to develop the forward-looking statements and forward-looking information contained in this press release include the following: our approved business plans, exploration and assay results, mineral resource and reserve estimates and results of preliminary economic assessments, pre-feasibility studies and feasibility studies on our projects, if any. When used in this press release, the words "optimistic," "potential," "indicate," "expect," "intend," "hopes," "believe," "may," "will," "if," "anticipate," and similar expressions are intended to identify forward-looking statements and forward-looking information. These statements involve known and unknown risks, uncertainties and other factors which may cause the actual results, performance or achievements of the Company to be materially different from any future results, performance or achievements expressed or implied by such statements. Such factors include, among others, uncertainty of resource and reserve estimates, uncertainty as to the Company's future operating costs and ability to raise capital; risks relating to cost increases for capital and operating costs; risks of shortages and fluctuating costs of equipment or supplies;
